ABOUT ME

My name is **Gurpinder Singh** recently graduated from **GNDU** (Guru Nanak Dev University, Amritsar). I am currently a **Full Stack Developer** who loves to create web applications with modern frameworks and libraries namely **MERN stack** (MongoDB, Express.js, React and Nodejs). Beside that I have academic knowledge of **java, php, python, c++** and **relational databases**. I worked as a freelancer for the last year during this I gained perspective to deal with applications of complexities particularly React SPA (single page applications).
