Surrey, BC | 778-862-3249 | gurpinders1511@gmail.com | <https://www.linkedin.com/in/gurpindersingh009/> | <https://gurpinders009.vercel.app/>

SUMMARY

Full-stack developer and mobile specialist graduating April 2026 with a 3.98 GPA (Dean's List). Builds and ships production-grade applications - deployed client websites, a QR-based payroll platform, and a Flutter learning app. Comfortable across the full stack: Flutter/Android, React/Next.js, Spring Boot, and GCP. Seeking a developer role where I can own features end-to-end.

SKILLS

- **Mobile:** Flutter, Bloc/Cubit, Android, Kotlin
- **Frontend:** React.js, Next.js, JavaScript, Tailwind CSS, UX/UI Design
- **Backend:** Spring Boot, Java, Express.js, Node.js, REST APIs, OAuth2, JWT, Spring Security
- **Cloud & DevOps:** GCP (Compute Engine), Docker, Azure CI/CD, Firebase
- **Databases:** MySQL, MongoDB, PostgreSQL, Firestore
- **Tools:** Git, GitHub, Postman, Figma

EXPERIENCE

Freelance Web Developer | Self-employed | 2019 - Present | Surrey, BC

- Designed and launched <https://www.mehndistudios.com> - a booking-enabled portfolio site for a henna artist - using React.js, Tailwind CSS, and Vercel; site handles ongoing client inquiries
- Built <https://www.dhillonbrosmecanical.ca> for a local mechanical services company, delivering a responsive site with service categorization and a contact/inquiry system
- Managed full project lifecycle for both clients: requirements, design, development, deployment, and post-launch support

PROJECTS

Math Tutor Hub - Flutter · Spring Boot · MongoDB · OAuth2

https://github.com/Gurpinder009/math_tutor_hub

- Developed a mobile learning platform for Grade 4-12 students supporting structured math practice, streak-based engagement, and teacher-assigned exercises
- Built teacher dashboard for real-time student progress tracking and assignment management across multiple classes
- Implemented OAuth2 authentication and RESTful backend with Spring Boot; data persisted in MongoDB

Vertex Payroll & Attendance Management - Flutter · NextJS · PostgreSQL · Firebase

https://github.com/rahulkumar-android25/F2025_4495_071_RKu556

- Co-built a full-stack HR automation platform with QR-based attendance tracking and automated payroll calculation, reducing manual HR processing time significantly
- Developed the Employee and Terminal role Flutter apps; integrated Firebase OTP authentication for secure check-in
- Deployed via Azure CI/CD pipelines; system supports Admin, Employee, and Terminal role-based access control

Get Healthy App - Android · Kotlin · Google Maps API

https://github.com/Gurpinder009/mobile_development2_classwork/tree/GetHealthApp

- Built an Android wellness tracker with calorie, sleep, water, and exercise logging plus BMI calculation
- Integrated Google Maps to surface nearby gyms and fitness centres based on user location
- Generated personalized health reports from user data to surface actionable lifestyle insight.

EDUCATION

Post-Baccalaureate Diploma in Emerging Technology Douglas College | Jan 2024 - Apr 2026

GPA: 3.99 | Dean's List

Relevant coursework: Mobile App Development, Full Stack Development, Cloud Infrastructure, Data Structures & Algorithms, Software Engineering, IT Security, ML

Bachelor of Computer Applications | Guru Nanak College, Phagwara | Jul 2019 - Jul 2022

Relevant coursework: OOP with Java, Computer Architecture, Computer Graphics, Cybersecurity Fundamentals
